

SOCIAL DISTANCING 101

How you can stop COVID-19

What is Social Distancing?

These are actions to reduce face-to-face contact, which may help reduce the spread of disease.

Give a 6 foot wave!

Practice six (6) feet of space from others – wave instead of handshakes.

Everyday Precautions:

We ask all residents to self-isolate and practice social distancing. Please stay at home and avoid going out into public. Avoid medical settings unless necessary. And, as always, please wash your hands, avoid touching your face, and stay hydrated!
